

NPI Milestone Tracking Status Reports:

Just a reminder that these need to be submitted timely upon request. You also need to let us know if the contact person or persons for these status report changes, so we are in communication with the appropriate parties at your organization.

We have been requesting these on a monthly basis, but will be going to twice monthly as the end of the year approaches.

Next Milestone Status Update will be requested next week.

We are also still missing AHCCCS planned testing dates for some organizations and will be follow-up with you individually.

CEO Email re. 9/28:

(Copy attached).

Regarding the need for detailed information about each organization Outreach Activities.

Please ensure that this communication gets to the appropriate people within your organizations and that the requested follow-up is completed within specified timeframes.

Testing:

Hand-out reminder of Testing Requirements. (Copy attached).

Will be following up with each organization individually.

A limited set of suggested Encounter testing scenarios will also be shared with each organization.
